

March Field Trip

Bethesda – A Sense of Place: Photo Shoot & Gallery Visit

Saturday, March 25, 2006

8:30AM Vienna Metro parking Lot - North

Spring is nearly here and it's time to explore one of our local communities – Bethesda, Maryland.

Bethesda, like many towns in the Washington area is a composite of old and new buildings and businesses, but unlike many localities, has found a way to more successfully cultivate the arts. Our March field trip leverages many aspects of downtown Bethesda and its arts.

Our field trip includes Saturday morning photo shooting at several Bethesda sites including the Farmer's Market, a multitude of public art displays, and nearby visually interesting office buildings, store fronts, and restaurants. The "old and new" mosaic that is Bethesda combines for our shooting pleasure.

We will have lunch at one of several local restaurants, compare photography notes, and then spend time visiting several of the local galleries in Bethesda, including the MARCH 2005 - BETHESDA INTERNATIONAL PHOTOGRAPHY COMPETITION exhibit at the Fraser Gallery and the photo exhibits at the Lightwave Gallery and the Washington Photography School.

We will carpool from our usual Vienna Metro North parking lot at 8:30AM on Saturday, March 25, 2006. Contact Bill Kyburz at [**wkyburz@cox.net**](mailto:wkyburz@cox.net) or 703-506-4404 for more information.

So grab your camera, enjoy the warm(ing) weather, and create some great images.
